

Tools and Technologies for Development - *Internal Use Only*

This list is delineated by category and grouped into 4 primary statuses. *(This list is focused on cloud based development and is continually being assessed and updated)*

- The **Preferred** technology list refers to the ideal next state where we want to be as an organization.
- The **Approved** technology list are items that are grandfathered into the list due to current use. The approved list items will move to Preferred or Deprecation over this year as we progress the Assessment List
- Items that are **In Assessment** for inclusion in the Preferred list.
- Items that are being **Evaluated for Deprecation**.

Preferred Status

Programming Languages

- Java
- C#
- TypeScript
- Javascript

Runtimes/Frameworks

- .Net Core
- NodeJS

UX Technologies

- Angular
- HTML
- Angular Material

Services/API Protocols

- ReST
- Web Sockets

Repositories

- BitBucket
- Nexus
- Azure DevOps Server

Application Lifecycle

- Jira
- Confluence
- Azure DevOps Service

Customer IAM/IdP

- Okta

Testing Tools/Frameworks

- Functional : UI Browser Apps
 - Cypress Scripting
- Functional : ATM Terminals
 - AutoBolt + Cypress Scripting
- Functional: API
 - PostMan (* Need to procure corporate licenses)
- Functional Regression
 - JMeter + Selenium + Cypress Scripting
- Functional: Integration (PIT & Cross Product)
 - TBD Under Evaluation
- Performance & Monitoring / Endurance / Load Testing (HTTP portal / API)
 - JMeter + Prometheus
- Mocking & Stub Generation / Test Setup / Configuration Management
 - TBD Under Evaluation
- Unit Testing
 - Java : TestNG
 - .NET : NUnit
 - C++ (windows) : MS Test / Microsoft Unit Test framework
 - Android : TestNG
 - iOS : XCTest
 - Java Script : Cypress , Karma , Jasmine
 - Type Script : Cypress , Karma , Jasmine
- BDD (Behavior Driven Development)
 - Cucumber
- Test Reporting & Defect Tracking
 - JIRA + Xray Plugin

Build, Scan, and Deploy Tools

- BlackDuck
- SSD scan tool
- Jenkins
- Azure DevOps Service
- Maven
- Gradle
- npm
- SonarQube

Monitoring and Security Tools

- CrowdStrike
- Wiz
- CheckMK
- Prometheus
- Grafana
- Q Radar
- Rapid 7
- Azure Monitor
- Azure Security Center

Infrastructure Scripting

- Ansible
- Terraform
- Azure Resource Manager Templates

Application and Web Servers

- NGINX
- Open Liberty

Databases and Data Storage

- Azure PostgreSQL
- Oracle DB
- Azure Cache for Redis

Containers & Orchestration

- Kubernetes
- Docker
- Azure Kubernetes Services
- Helm
- Nginx Ingress Controller

Service and Data Orchestration

- MuleSoft
- Apache Activiti

API Management

- MuleSoft

Messaging and Event Queueing

- RabbitMQ
- Kafka
- MQTT

Reporting and Analytics

- Splunk
- PowerBI
- Sisense

Data Loss Prevention

- Digital Guardian

Approved Status

Programming Languages

- C/C++
- Groovy
- Python

Runtimes/Frameworks

- .Net Framework
- Spring

UX Technologies

- React
- Bootstrap

IDE/Editing Tools

- Visual Studio
- Visual Code
- Eclipse
- NetBeans
- IntelliJ
- Anypoint Studio
- SQL Management Studio
- Toad
- Oracle SQL Developer

Application Lifecycle

- SMAX

Testing Tools/Frameworks

- Functional : UI Browser Apps
 - Ranorex
 - Selenium
 - Cypress Scripting
- Functional : ATM Terminals
 - AutoBolt
 - Selenium
 - Cypress
- Functional: API
 - Ranorex
 - SOAP UI
 - JMeter
 - PostMan (* Need to procure corporate licenses)
- Functional Regression
 - JMeter + Selenium
- Functional: Integration (PIT & Cross Product)
 - TBD Under Evaluation
- Performance & Monitoring / Endurance / Load Testing (HTTP portal / API) ,
 - JMeter + Prometheus
- Mocking & Stub Generation / Test Setup / Configuration Management
 - Typemock
 - CloneZilla
- Unit Testing :
 - Java : TestNG
 - .NET : NUnit
 - C++ (windows) : MS Test / Microsft Unit Test framework
 - Android : TestNG
 - iOS : XCTest
 - Java Script : Cypress , Karma , Jasmine
 - Type Script : Cypress , Karma , Jasmine
- BDD (Behavior Driven Development)
 - Cucumber
- Test Reporting & Defect Tracking
 - JIRA + Xray Plugin

Build, Scan, and Deploy Tools

- Palameda (FOSS)
- ARM
- Octopus

Application and Web Servers

- JBoss EAP
- WebSphere
- Azure Application Service
- Tomcat
- Jetty
- Apache httpd

Databases and Data Storage

- Azure SQL Server
- CosmosDB
- Azure Table Storage
- Hadoop Parquet
- Azure Blob Storage
- Azure Storage

Containers/Container Management

- Azure Container Registry
- OpenShift
- Helmfile
- ORAS

Service and Data Orchestration

- Apache Camel

Messaging and Event Queueing

- Azure Event Hubs
- Azure Storage Queues

Reporting and Analytics

- ChartJS
- Business Objects
- Telerik Reporting
- Spark
- Azure HDInsights
- Snowflake
- Tableau
- Oracle BI
- Sisense
- Qlik Sense

- Yum Server
- ATP-Get
- Radia

Monitoring and Security Tools

- Application Dynamics
- Thousand Eyes
- Nagios
- SolarWinds

Infrastructure Scripting

- Puppet
- ARM Templates

In Assessment Status

Programming Languages • Go UX Technologies • SCSS/SASS	Certificate and Key Management • Venafi	Databases and Data Storage • MongoDB Messaging and Event Queueing • NATS
